

SMOKEroll

SMOKE TIGHT CURTAIN

CLASSIFICATION:
C-S₂₀₀ / C-S_a

- › Smoke-tight version of textile curtain SMOKEroll with S_a / S₂₀₀ classification.
 - › Made of special fire-resistant textile 0.5 mm thick with one-sided black silicone coating.
 - › Manufacturer's recommended maximum overall dimensions: width 6,000 mm or height 6,230 mm. For S₂₀₀ resistance, the maximum total area of the curtain of 27 m² is allowed.
 - › Minimum total width: 1,000 mm.
 - › Designed for face fixing or fixing between assembly (possible combination of both), fixing into concrete, masonry or steel profiles with required load-bearing capacity.
 - › Under the conditions defined by the manufacturer, the product meets the requirements of cycles class C1 and C2.*
 - › Standard **dimension of the curtain box is 230 × 230 mm (W × H)**.
 - › Very light weight (curtain 3 × 3 m approx. 160 kg).
 - › Controlled by means of a tube drive (230 V AC).
 - › Closing speed is approximately 100 mm/s.
 - › Steel parts made from galvanized metal and standardly powder coated in RAL 9006 (white aluminium) or RAL 9010 (white).
- › **Control panel AOP (AVAPS Operation Panel) including emergency push button (Fire button)**
 - › System designed in accordance with **EN 14637**
 - › Provides electronic control of individual curtain functions
 - › „Fail safe“ design – safe gravity closure even in the event of a power failure
 - › Fire detection options: building FDAS (fire detection and alarm system – potential-free contact) or local detection (3 or 6 sensors depending on the curtain width)
 - › **According to customer requirements, it can be supplemented with:**
 - › Own back-up power source (accumulator) preventing undesirable closure of the curtain in the event of a power failure, including a cyclic charging system extending battery life
 - › Status monitoring and fault evaluation (short circuit, cabling fault, under-voltage, over-voltage)
 - › Key switch, lockable button
 - Optical and acoustic signalling
 - Status signalling to external devices
 - Emergency open button
 - Optical barriers
